PROFILE

Courteous and enthusiastic, I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g. developing apps and building websites. I like to code things from scratch, and enjoy bringing ideas to life in the browser. For this reason I am looking for a company willing to offer me placement among their developers. In return I would offer my full commitment, and be a pleasant and friendly addition to a team. Below you will find the projects that showcase my skills and general background in developing software.

EDUCATION

Bachelor's Degree
Foreign Languages, Literatures, and Linguistics

Minsk State Linguistic University | 2009 - 2014

SKILLS

- HTML, CSS, JavaScript
- React
- Bootstrap
- Sass
- Git
- Figma
- Adobe Photoshop

EXPERIENCE

Front-End Software Developer
Dec 2019 - Now

- **Color Generator Project.** Based on Coloors website, this app generates colors to create various custom color palettes. It was designed with the help of HTML, CSS, JavaScript, Chroma Library and Sass.

- **Vibrobalans.** The website was designed from scratch using HTML, CSS and JavaScript.

- **Weather App.** This application was designed from scratch using Figma graphics editor. It manipulates DOM elements to output the app onto HTML canvas. Utilizes Current Forecast Weather API through HTML5, CSS3, Vanilla JavaScript.
